Ship Out Of Control Crashes
Into Clump Of Trees
Near Airport

(International News Service)
WASHINGTON, Dec. 4.—Two
army air officers, Major George
E. Rice and Lieut. Harry H.
Geoffrey, were killed in a plane
crash today at Bolling field.

Officials at the field said the
plane was coming in from Mitchell
field, New York, and was about to
land when apparently the high wind
which obtained at the time blew
their ship out of control and sent it
crashing into a clump of trees at
the east end of the landing runway.

Geoffrey was piloting the plane, it
was believed, as Major Rice was be-
ing brought here as a passenger.
Army air corps officials were un-
able to explain the crash. The ship
was at low altitude and preparing
to land when it got out of control.
The plane was an old model pursuit
type.

Major Rice's home was in Ther-
mopolis, Wyo., and Capt. Geoffrey
came from St. Paul, Minn.

from Forest County, where the for-
mer was successful in bagging an
eight point buck. He was successful
in getting it early in the morning.

New Castle and Lawrence County
experienced the coldest night of the
present wintry spell last night. Of-
ficial weather records show the low-
est point at 12 above zero, but some
thermometers in the district regis-
tered as low as ten.

The full meaning of winter was
born home to members of the B
Truck Company of Central station
and to Fourth Ward firemen, who
made a long run to the Castle
Foundry on Butler avenue exten-
sion this morning with the tempera-
ture down around 18 degrees. This
kind of work brings tears to the eyes
of the most hardened.

E. N. Allison and son, Bill, of 444
Neshannock avenue, returned from
Medix Run Tuesday afternoon with
a 6-point buck which Bill Allison
shot about 10 o'clock Monday morn-

In announcing retailers had been
notified of the regulation, the board
pointed out the step was taken in
the effort to maintain "temperate"
operations at liquor dispensaries and

was carrying out the wishes of the
legislature in setting up the control
board.

"The step was taken in our at-
tempt to 'safeguard' the sale of

two friends took off from the New

about 11:30 o'clock Tuesday morn-
ing. In 23 minutes the plane had
already reached Warren, O. The
weather and visibility were perfect
for flying at this point, Mr. Clark
stated. As the plane neared the
vicinity of Chagrin Falls, about 10

Number Of Deer Killed In State Set At Low Mark

Seven Hunting Fatalities
Have Occurred To Date
In Woods Of State

(International News Service)
HARRISBURG, Dec. 4.—Fatal-
ties of the big game hunting sea-
son in Pennsylvania stood at seven
today, with five deaths directly due
to gunshot wounds and two others
to over-exertion caused by pursuit
of deer in the state's big game lands.

Walter Toney, 19, became the sev-
enth victim as the third day of the
big game season got under way.
The youth was struck in the head
by a bullet while hunting with a
party of friends in the woods of
Dorrence township, near Wilkes-
Barre. After the group had driven
a deer into a clearing several shots
were fired, one of them striking
Toney, who died almost instantly.

On Monday, the opening day of
the season, six lives were claimed,
including the two due to heart
failure. Of the four remaining vic-
tims one was three-year-old Eva
Mae Madison, killed when struck
by a bullet from a gun being dis-
mantled at Derrick City, near Brad-
ford.

Despite the fact that thousands of
the state's nimrods took to the
forested areas, preliminary reports
indicated the deer kill for the open-
ing days of the season was below
expectations.

ing, a short distance from his own
home, and is the first to report get-

The buck has been in the vicinity
for several months, numerous re-
ports having been received, and this

Nashua again, as Mr. Braho took up
the hunt.

In the wooded section near the
Standard Slag Company property
about a mile and a half above the
Nashua bridge over the Shenango
river, Mr. Braho brought down the
buck. It was an eight point buck
and weighed about 155 pounds.

Georgia Farmers Will Confer With Roosevelt

By GEORGE DUNNO
International News Service Staff
Correspondent

WARM SPRINGS, Ga., Dec. 4.—
A group of substantial farm-
ers from the countryside sur-
rounding Warm Springs had an
engagement to call on President
Roosevelt today to suggest a
further reduction of the inter-
est rate on farm mortgages to 2
or 3 per cent.

In advance of their talk with the
president it appeared the burden of
farm debt was still worrying these
farm-owners of Meriwether coun-
ty, Ga., despite a conceded improve-
ment in conditions generally during
the past year. They said the last
congressional action in reducing in-
terest was not sufficient. Two per
cent would be ideal, and 3 per cent
would be a fairly good compromise.
The mayor of Warm Springs, W.
G. Harry, who is also a Presby-
terian minister, together with Judge
Rendell Terrell of Greenville, head-
ed the group which included about a
dozen of the more aggressive farm-
ers in this region.

Mr. Roosevelt had asked them to
the little White House here on the
slope of Pine mountain because he
wanted their reaction to the efforts
of his administration to bring the
farming communities back to a more
equitable basis with the urban popu-
lation.

why others can't understand it."
Pretty Mary McElroy's dark eyes
flashed as she told today about her

British Cabinet Completing

Peace

(International News Service)
LONDON, Dec. 4.—The British
cabinet today put the finishing
touches on a plan for peace in East
Africa which, perhaps significantly,
is expected to be acceptable to Pre-
mier Benito Mussolini but not to
Emperor Haile Selassie.

Whereas previous proposals asso-
ciated with the British government
have been more acceptable to Ethio-
pian than to Italy, the plan now un-
der consideration is declared in au-
thoritative circles to contain strong
elements of satisfaction for Il Duce
but concession pills which the Negus
may find it hard to swallow.

At the cabinet meeting today
Foreign Minister Sir Samuel Hoare
was given final instructions on what
to say and do at the conference
with Premier Pierre Laval of France
which he will hold in Paris over the
week end. This parley will be held
to talk peace. It was the last cab-
inet session Sir Samuel will attend
before seeing Laval.

ITALY DENIES OIL REPORT

No Agreement For Oil Supply

Nation Officially Denies Report Of Contract With Standard Oil Co.

TEAGLE ALSO ISSUES DENIAL

By HUDSON HAWLEY
International News Service Staff Correspondent

ROME, Dec. 4.—Under a barrage of queries from all over the world, the Italian foreign office today characterized as "another preposterous tale" private information that a \$90,000,000 agreement had been reached with a subsidiary of the Standard Oil Company of New Jersey to supply oil to Italy if the League of Nations imposes an embargo.

"It is absolutely untrue and we officially deny it. It has already been denied on the American side," the foreign office spokesman said, but refused to discuss the matter further.

The story of the deal, as related by usually reliable unofficial sources, said that a 30-year monopoly had been granted, effective when the league embargo begins.

All the oil under the arrangement, these sources said, will come from outside the United States.

The understanding, it was said, was negotiated by W. F. Hawkins of Genoa, the representative of Italo-American Oil Inc., the Italian subsidiary of Standard Oil of New Jersey.

In a telephone conversation with International News Service from Genoa today, Hawkins refused to make any statement under his own name. He pleaded that he was content to rest on the denial issued in New York by Walter C. Teagle, president of New Jersey Standard.

Hawkins maintained that he was merely an official of Italo-American, of which Standard Oil holds some stock. He has been in Italy for 12 years.

Oil Company Statement

New York, Dec. 4.—An emphatic denial of published report that the Italian subsidiary of Standard Oil of New Jersey had negotiated a 30-year contract to supply oil to the Italian government came from Walter C. Teagle, president of the company today.

"You can't deny too emphatically that we know nothing whatever about any such deal," Teagle told International News Service. "We just wouldn't have any interest at all in a deal involving a government monopoly."

"We haven't heard a word about this supposed deal and there is absolutely nothing to it. Our man Hawkins (W. F. Hawkins, head of

Standard's Italian subsidiary) hasn't even been in touch with us for several days and he wouldn't have the right to commit us anyway."

Teagle also issued the following formal statement:

"The only information regarding the reported agreement between the Italian government and the Societa Italo Americana Del Petroleo for guaranteeing her supplies of oil in return for a term monopoly is that telephoned us by the newspapers."

"I can unequivocally deny that any such arrangement has been considered. So far as I know, it has not even been proposed to our Italian company. The officials of that company know that such a contract would not only be impossible of fulfillment, but also would under no circumstances be acceptable to us. It sounds like a preposterous piece of propaganda."

The administrators Mrs. Laura Linton and Mrs. Laura McCready, are going to sell the household effects at a public sale soon.

On account of the public interest that has developed by reason of the finding of the hidden money and the surprising value of the estate, it goes without saying that there is likely to be a big attendance at the sale.

Attorney Walter S. Reynolds, who is attorney for the estate is now busily engaged in getting the assets together preparatory to a final appraisal.

Places affected by the regulation include all retailers, such as clubs, restaurants and hotels. Among reasons contributing to the step being taken, it was reported, was receipt of complaints that work relief checks were being cashed and used in liquor establishments.

study before reporting its findings, was a moot question. A prompt response was anticipated, however, since many municipalities throughout the commonwealth are preparing their budgets for the coming year, and information on the relief load they will have to carry is essential.

However, most communities are baffled by the program as it will exist after January 1, when the direct relief burden is turned over to them. Few are prepared to take over relief when the state funds for that purpose are exhausted.

Hampered by a lack of information as to how the problem is to be met and beset with fiscal difficulties

involved in the transfer of responsibility, most local municipal officials are "sitting tight" until some word comes from Governor Earle.

Nearly 109,000 "employables" in the state are still on the direct relief rolls, awaiting transfer to WPA jobs. Because of the holiday last week, accurate figures on the exact number placed on the works relief program were not available.

Relief officials, however, estimated that "more than 200,000" of the 309,000 "employables" in Pennsylvania have been transferred thus far.

Meanwhile, an estimated 1,222,000 direct relief recipients were in the care of the state until the end of the month. In addition, with checks for WPA work running several weeks behind schedule, it was estimated about 50 per cent of the 200,000 transferred to work-relief are still receiving direct relief aid until their pay checks begin to come in.

Driving ahead in the effort to clear the relief tangle, the state emergency relief board emphasized that persons who did not respond when called to a WPA job must be dropped from the direct relief rolls immediately. Affecting striking groups among WPA workers, the board ruled that the regulation applied "to all people who refuse collectively to accept work on works projects."

No Announcement

Enjoying the end of his vacation stay here, Mr. Roosevelt laughingly declined formally to announce his candidacy for re-election.

At his press conference, when asked a leading question in that connection, the president made a gesture reminiscent of the late Charles Murphy, boss of Tammany Hall, and quoted Murphy's oft-repeated words:

"The convention will decide who the nominee will be."

Also, the president was quite specific that Jesse Jones, head of the RRC would assume the presidency of the Export-Import banks, succeeding George Peek, as an additional federal duty.

Rather than take a chance of getting deeper into the blinding storm, Pilot Clark decided to turn around, and headed towards New Castle. The trip home was rather long due to the fact that Clark lost his course. However, he was able to retrace the course and arrived at the hangar of the New Castle airport after 1 o'clock. From Chagrin Falls, the party traveled about 120 miles, at a speed as high as 140 miles an hour, before reaching the local airport.

The New Castle young men planned the air trip to visit Dom Delallo of 333 Laurel avenue, who was appearing in a Cleveland theatre with Jack Hilton's renowned orchestra.

This is one season when County Treasurer W. O. Pitts got his deer. Hunting near Marienville, Pa., Mr. Pitts brought down an eight point buck that will make a handsome specimen when it is mounted. WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sunk and the world looks punk.

Laxatives are only makeshifts. A memo bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless, gentle, yet amazing in making bile flow freely. S. OF D. GIRLS HAVE ANNUAL CHURCH DINNER

At three long tables in the dining room of the Central Presbyterian church Tuesday evening, there were 48 places for S. of D. girls and their friends, for their annual dinner. Christmas trees, trimmed with silver tinsel, were attractive centerpieces, the holiday idea being accentuated further by red tulip favors filled with candy at the places. An appetizing menu was served by the Central circle. While still at the table, Mrs. Oscar Rhodes, teacher of the class, was presented with a beautiful gift from the S. of D. girls.

Later hours were given over to enjoyment derived from a humorous playlet, "Christmas at the Poor Farm," which was capably directed by Mrs. Lowery Wilson. The cast included: Mrs. George Cooper, president; Mrs. S. M. Hogue, Mrs. Earl J. McNeese, Mrs. Herman Decker, Mrs. Vance Montgomery, Mrs. Everett Anderson and Mrs. John Gaston. The parts were well taken and the cast was highly complimented for the little skit which has lately been heard over the air.

An exchange of gifts featured, the group giving and receiving lovely presents.

M. M. C. Club

A new social group to be known as the M. M. C. club was organized recently, with the following officers elected for the first year: President, Rose Calalucia; treasurer, Mary Rizzo.

The next meeting will be held at the home of Mary Calalucia, 315 Lutton street.

OFFICERS ELECTED AT DINNER-MEETING

An elegant chicken dinner with all the trimmings, Christmas and otherwise, was enjoyed at 6 o'clock Tuesday evening in the home of Mrs. Helen Ray, Hillcrest avenue, by the F. H. C. club.

All members were present with the exception of Mrs. Mary Rae, who is still confined to her home, but is recovering from the effects of a fall some week ago. After partaking of the appetizing menu, the group held a business meeting at which the following officers were elected: President, Mrs. Martha Morse; first vice, Mrs. Helen Ray; second vice, Mrs. Blanche Lewis; treasurer, Mrs. Amanda Woodruff; treasurer bank, Mrs. Blodwin Davies; News reporter, Mrs. Julia Miller.

The group was exchanged as a delightful feature of the informal evening and plans were made for the next assembly on January 14, at the home of Mrs. Bertha Daugherty, on Walnut street. This committee was named for that evening: Mrs. Julia Miller, Mrs. Margaret Shaner, Mrs. Bertha Daugherty, Mrs. Amanda Woodruff.

JEANNE MacKENZIE IS MARRIED ON SATURDAY

Friends in New Castle are interested in the news that Miss Jeanne MacKenzie, of Pittsburgh, formerly of New Castle, and Herbert Bowman, of Warren, O., were married on Saturday, November 30, in the East Liberty Presbyterian church, at Pittsburgh.

The ceremony was performed in the presence of a few relatives and friends. The couple left later for a few days' motor trip.

Mrs. Bowman is a graduate of the New Castle senior high school in the class of January, 1929. After a course in commercial studies at Miss Conley's School in Pittsburgh she accepted a position in the main office of the Star Market concern and remained there until her marriage. She is the daughter of the late Dr. R. M. MacKenzie, and had resided on North Jefferson street, this city, until a few years ago.

FAMILY CELEBRATION ON WEDDING DATE

Notable among events for Tuesday was a dinner given in the evening at the home of Mrs. John Stimpel on Walnut street, to observe the 57th wedding anniversary of her parents, Mr. and Mrs. F. E. McConnell, who reside in Edinburg, at the home of a son, Russell McConnell.

There were some 22 members of the family present including seven children of the venerable couple, Mrs. John Stimpel, Mrs. Albert Lutz, Mrs. Charles Caldwell, Mrs. Verna Sankey, Mrs. Clair Matthews, Orin and Chester McConnell. Two other sons, Russell and Grant McConnell, were unable to attend. An informal evening following an excellent dinner was enjoyed, marking the occasion one long to be remembered. Homer McConnell, a brother, shared in the pleasures.

In connection with this past half century celebration of happy married life, it is interesting to note that Mr. and Mrs. McConnell were married on December 3, 1878, in Lucasville, O. The bride's name was Jennie Schultz. To the couple united have been born 13 children, nine of whom are living, all in New Castle and vicinity. There is a large number of grandchildren in the connection, and several great-grandchildren.

Mr. and Mrs. McConnell have lived on a farm practically their entire lives, and are well known in the Edinburg and New Castle districts. Mrs. McConnell is 75 years of age, and her husband will reach his 79th milestone two days after Christmas.

"AUCTION TEA" EVENT PROVES DELIGHTFUL

One of the novel parties of the season and the first to feature the "Yuletide calendar" for members of the L. M. S. Girls of the Central Presbyterian church, was the "Auction Tea" given in the home of Dr. and Mrs. C. B. Winger on Park avenue, Monday evening. Gifts were auctioned off in a clever manner. Afterwards the assemblage was favored with vocal selections by Miss Margaret Hess, who had for her accompanist, Miss Helen Ewing. The remaining hours were spent informally and a tempting lunch was served to 80 guests by the following committee: Elizabeth Wallace, Mrs. E. Robinson, Mrs. K. Peterson, Mrs. E. Campbell, Elma Robinson, Mrs. C. Martin and Mrs. Winger.

W. C. Club

Mrs. Ethel Hanna of Round street received the W. C. club on recent evening, offering games and cards for pleasing diversions. Prizes were awarded to Mrs. Mary Clark and Mrs. John Lockwood.

As a concluding issue, a dainty repast was served, the hostess being assisted with the menu by Mrs. Esther Wanatosky. The next meeting will take place Friday, December 13, at the home of Mrs. John Lockwood on Round street.

A. B. D. GIRLS ENJOY CHRISTMAS PROGRAM

Most interesting stories of "Christmas in Other Lands" by Mrs. J. J. McVaine, wife of the minister at the First Presbyterian church, featured the December meeting of the A. B. D. Girls Tuesday evening in the Winter avenue home of the president, Mrs. James B. Foster.

The speaker was introduced by Mrs. Harry L. Gormley, who led the girls, after the pleasing recital, in several Christmas carols. Other tales of interest were related by Mrs. Anna Wagner about her son, Victor Wagner, and his "Seeing Eye" Vonnegut. This young man and his dog have become popular figures in town since their return from the school at Morristown, N. J., a short while ago. They are now located in the postoffice daily, Vonnegut directing his master there early every morning where he conducts a paper and candy stand.

During the business session, plans were discussed for providing the usual holiday treat for the Almira Home, a committee being appointed to provide new Christmas trimmings for the tree which is always decorated Christmas Eve, pack boxes of candy and otherwise complete arrangements. This committee consists of Mrs. J. Myron Rice, Misses Margaret and Virginia Weinschenk, Jess Wilson and Margaret Hice.

Children at Crawford-Oakridge Home will also receive an added bit of holiday cheer, the A. B. D. Girls planning to collect books and other toys for their happiness. Mrs. Lake S. MacNab was appointed chairman for this activity. Devotions were led by Mrs. Roger W. Rowland.

Concluding the business and program, daintily appointed refreshments were served from the dining room table, which was centered with an attractive silver bowl filled with silver balls, on either side of which were red tapers in silver holders. Assisting Mrs. Foster in serving were the co-hostesses, Mrs. Harry L. Gormley, Mrs. Roger W. Rowland and Mrs. Ralph H. Ramsey.

FIVE X CLUB CHANGES CLUB NAME TO HI-B

Three club guests, Mrs. Helen Thompson, Mrs. Merle Gibson and Miss Jane Preston, attended the meeting of the Five X club Tuesday evening with Mrs. Teresa Gibson of East Washington street.

At the business session an election of officers was held. Mrs. Teresa Gibson was elected president, Mrs. Virginia Barnhart vice president, and Mrs. Estelle Shira treasurer. It was decided to change the club name to Hi-B by which it will be known hereafter. Arrangements were discussed for a Christmas party to be held December 17 in the home of Mrs. Estelle Shira on Neshannock avenue.

For entertainment, cards were furnished with three tables of 500 in play. Mrs. Edith Spayde and Mrs. Ruth McNicholas were fortunate winners. A flavorful luncheon was served, the hostess having for her aides her daughter-in-law, Mrs. Merle Gibson, and Mrs. Grace Primiver.

EMANON CLUB DRAWS FOR YULE EXCHANGE

Miss Isabelle Steele of the New Castle-Ellwood road, extended hospitality to members of the Emanon Eight club Tuesday evening at her residence, when they met for planning of their annual Christmas party. Names were drawn for the exchange of gifts, to take place on December 17 at the Steele residence, with Naomi presiding as hostess. Other features were planned for this date, that will prove of additional interest.

The remaining hours were spent informally with a contest in cards, two tables being in play. Misses Naomi Steele and Edna Myers, were winners of the high score awards. Following, lunch was served, the appointments being suggestive of the season. Mrs. Alfred Mann and Lillian Lepply were aides.

Bide-A-Wee Lassies

Delightful hospitality was extended the Bide-A-Wee Lassies at the home of Jean Kennedy on Long avenue, on the evening of November 29.

After a brief business session, diversion was found in sewing and chat with the serving of a tasty lunch, a later consideration, the hostess being aided by her mother, Mrs. H. P. Kennedy. Miss Jean Lovridge was a visitor.

The next meeting will be at the home of Mary Lovridge, Harrison street, the time to be announced.

Much interest is being manifested in the program to be presented on Monday evening, December 9, in the First Christian church by the local Music club, which will be given in observance of the Yuletide season. The hour is 8 o'clock.

In opening the meeting, Mrs. B. Kline, president, extended greetings to the large assembly present, after which disposition was made of routine business matters and a delightful program was presented.

Mrs. Slavon contributed several vocal solos, playing her own accompaniment, and Mrs. E. Kaplan gave an instructive and interesting talk, in which she stressed the importance of a large membership to enlarge the very wonderful and worthwhile work which the organization has been doing the past several years.

Estelle Waldman and Jane Solomon presented a clever skit, which was much appreciated, and another delightful feature was the presentation of a handsome Chanaka gift to Mrs. B. Kline. Mrs. J. Cobb extended the greetings and best wishes of the Jewish Ladies Relief in making the presentation, the recipient responding in her usual gracious manner.

In conclusion, the members were invited to a beautifully decorated tea table where tasty and attractively appointed refreshments were served by Mrs. Zieve and her co-hostesses, Mrs. A. "SOLEMN COVENANTS"

AT THIS time when there is a grand drive—and propaganda is being fired at us from all sides—to get us into the European situation and help European politicians carry out "solemn covenants" in the interests of "world peace," a few remarks that were uttered the other day by a prominent French statesman about another "solemn" promise we got not long ago will not be out of place.

Speaking of the agreement of the allied nations to pay their debts to the United States—after these debts had been generously reduced—Senator Henry Berenger, president of the Senate Foreign Affairs Commission in France, is quoted as stating:

"The debts all fell into catalepsy more profound than death, and the miracle that would resuscitate them is not in sight.

"Humanity has continued to live without these obligations, and nothing can prevail on the forces of the future, which desire to be freed from the chains of the past.

"What is the good of insisting on payments that nobody wants to make? What is the use of scribbling new nonsense about an agreement?

"There certainly will be experts to elaborate a new plan and diplomats to write their texts. But where will you find the people to pay them?"

Here is a good example of how European statesmen regard solemn and honorable obligations after they find that it is not in their interest to make good on these obligations.

It is not a question of inability to pay.

Italy, who pleaded poverty when its war payments became due, is spending hundreds of millions in an effort to overcome Ethiopia and so grab off for itself some more land and loot.

Great Britain, which has pleaded poverty, although it has balanced its budget, is planning to build the most powerful aerial fleet in the world and to spend millions on its navy which is already the most powerful in the world. And we are solemnly told that the debtor nations do not pay us because they cannot pay.

The diplomatic hypocrisy in Europe has been spread on so thickly it can be seen 3,000 miles across the Atlantic, and any American statesmen who by intent or folly entangle us in another European mess ought to be buried politically ten feet below the bottom of the bottomless pit.

MORE HARD STUDY

Education is another line of business showing notable improvement. There is a much larger college attendance this year. And it isn't merely a larger college roll either. It's attendance at classes. In one state, where colleges are a leading industry, attendance at all classes of all institutions shows a clear 7 per cent gain over last year. And the professors say the students are doing better work.

The boys and girls take their education more seriously now. They had a big lot the last few years, and got low-spirited, fearing that they were doomed to live in a world where they wouldn't have a chance. Now they grow more hopeful; but they realize that bluff and mediocrity are "out"—that to succeed they have to be good.

CLOSE PRESIDENTIAL ELECTIONS

Political observers seem to be agreed that the presidential election of 1936 is likely to be the "closest in a generation." Much depends, of course, upon the future course of business, the personality of the Republican candidate, and the nature of the policies to be offered by the Republicans in substitute for the New Deal. Elections a year off have a way of looking very much closer than, in the end, they turn out to be.

However, it is about time for another close election in the United States. We have had one every twenty years since the Civil War, and the last close election was in 1916. In that year it was several days after the ballots had been cast before the country knew whether Wilson or Hughes had been chosen to the presidency.

Twenty years earlier, in 1896 there was the close McKinley-Bryan race, with 16-to-1 as the paramount issue. McKinley's election took questions of monetary policy out of the national political arena for 40 years. In 1936, the question of a return to the orthodox gold standard or permanent adoption of plans for a managed currency may again provide a leading issue.

Prior to 1906, the closest election was that of 1876, when the Hayes-Tilden contest had to be fought out before an electoral commission of congress, long after the votes had been counted. Many old-line Democrats still contend that the presidency was stolen from Tilden by an electoral commission dominated by Republicans.

AUTOS TOO OLD FOR SAFETY

An interesting survey has been made to determine the average life of motor cars and reveals that approximately a million and half cars have been in operation nine years, while more than 25,000 are still being driven despite the fact that they have reached the age of 13 years. These figures are estimates based on figures for yearly production, number of registrations and number of cars scrapped.

The average life of cars now in operation is eight and a quarter years, as compared with six and a half years a few years ago.

The figures bear out the contention of leaders in safety movements that cars which are not mechanically fit for safe driving contribute largely to the hazards of streets and highways. A computation of automobile fatalities shows that at the close of last year a fourth of all cars in operation during the year had been in use more than eight years.

Auto club officials say that cars as old as the survey shows are a definite menace to safety, for so many owners, thinking that they will soon replace them, seldom give the care necessary for safe driving.

The depression has affected the accident record, as may be seen in the survey's showing, but with recovery and the earlier showing of new models sales have been stimulated. As many of the sales have been made for replacements there is prospect that a majority of the machines that are badly worn and unfit for operation will be discarded. Owners of cars no longer fit for use owe it to themselves and to other users of the highways to do their share toward increasing the number of new cars in use with improved safety equipment. By making early purchases they will help the industry which is doing much to aid others in recovery.

People who long for a swell big house usually are the kind that don't keep a little one clean.

The educated have one advantage. They realize that education can't make dull people smart.

WYNANT D. HUBBARD, Universal Service correspondent, writing from Dessye, Ethiopia, described Emperor Haile Selassie, somewhere near the front.

"He inspected the American Seventh Day Adventist mission, and without batting an eyelash, the Emperor watched an operation on a thief, one of whose hands was cut off by the thief's victim."

Cutting off the hand that stole from him must have been pleasant for the man robbed, but a "civilized Ethiopian emperor" calmly looking on must have surprised the Seventh Day missionaries.

THERE is a prospect of agreement concerning Ethiopia. England wants no fight, especially without France to keep her company and supply men. France would NOT fight if it were possible to avoid it.

Correspondents, well informed, expect some sort of settlement. You notice that hille our government rushes in where nothing concerns it, to prevent oil exports to Italy, the League of Nations has not yet enforced the oil embargo.

"What will Mussolini do?" That question disturbs European nations. They would be more disturbed, perhaps, if Mussolini were to answer that question, with deeds.

THE ENGLISH King did not read his own speech from the throne because of his elderly maiden sister's death. The speech, read for him, said that "gaps" in Britain's national defense must be filled in.

It is expected that three hundred million dollars of money now to be borrowed will be spent on those "gaps." The rest of the money will pay off other bonds.

SENATOR BORAH, of Idaho, and Congressman Hamilton Fish, Jr., of New York, had a long talk and reporters "guess" that Senator Borah and Mr. Fish have agreed to run side by side—Senator Borah for President, Mr. Fish for Vice President.

It is not safe to "guess" about Senator Borah, but it would be wise for the Republicans to decide soon. Uncertainty does not make votes.

All Of Us

WE USED TO—

We used to have a good time when we were kids.

We used to build "houses" in trees and pretend we were savages, and we'd stretch a rope or a cable from one tree to another and put a pulley on it and slide lickety-split down it.

We used to have a friend whose father owned a grocery store and we used to go in there with him and snatch a pocketful of cookies with coconut frosting on them.

And when we saw a kid swiping a ride on the back end of a horse and buggy, we'd yell "Nip behind" and the driver'd slash back with his whip and get that kid out of there.

We used to take our 22's out to Kelly lake and shoot at ducks and mudhens. . . . Once we rolled a mudhen in clay the way we'd heard the Indians did and baked him. But it didn't work out very well. The mudhen didn't come off with the mud and he tasted terrible.

We used to go clamming in the bay and wild blackberry picking by the river and mushroom hunting on the hills back of town, and we always visited Ray Quick's place in the ripe cherry season.

We used to catch grasshoppers and hold them in our hands and say, "Spit tobacco and I'll letcha go." And we used to dry corn silk for cigarettes and smoke 'em in bamboo pipes and borrow dime novels from Leo Lee, who lived down on Walker street.

We liked licorice and cinnamon sticks and dried alabone, and we used to make slingshots and shoot at blackbirds on the telephone wires.

We used to hang around Sager's horseshoers and ask him to make us a ring out of a horseshoe nail, or give us a couple of the nails—because they used to be the best things for getting the kernel out of black walnuts.

We always used to deny we had a girl, but if you teased us about her we used to get awfully red.

On the last day of school we used to shout, "No more hist'ry, no more grammar, no more kids under teacher's hammer." . . . But toward the end of vacation we used to be glad to be going back to school.

We used to throw things at the Chinese vegetable man, and then expect him to give us sugared coconut lichee nuts on his New Year's day.

And we used to always be complaining that "there's nothing to do in this old town."

IT'S NEWS

If a hunter runs after a rabbit—that's not news.

If a rabbit runs after a hunter—that's news.

Ah! it is indeed a true story, too. One of the local hunters tramped through the woods until he finally espied a nice-sized bunny. He pulled the trigger but the bunny merely wagged its little tail and scooted around a big barn. The hunter was close behind, breathing heavily.

The hunter ran around the barn like a champion sprinter. The bunny was more experienced and hence made much better progress around the barn. So the hunter and the bunny made a complete tour around the barn.

The hunter stopped. An idea entered his brain. I'll go back around and get him," he said to himself. Yeh, he was going to fool the bunny at its own game. He retraced his steps and ran around in the opposite direction. But alas and what! The bunny had the same idea. It ran in the opposite direction, too.

So there was the hunter running and the rabbit running after the hunter. Happening to look around, the hunter saw the rabbit at his rear. He stopped but the rabbit didn't. The rabbit landed on the hunter's face. Its four soft paws digging furiously to make the climb over the hunter's head.

Yeh. The hunter got the rabbit. Ben Alleye Goolash.

NEW YORK, Dec. 4.—In spite of official assurances of a reduced federal budget, Wall Street is looking for higher federal income taxes. Those taxes would be adopted by the 1937 congress, following the election, but would apply to 1936 earnings.

It is certain that a large part of 1936 earnings will be ploughed back into taxes of various sorts. And if the AAA is declared unconstitutional, the taxes are expected to be larger than they otherwise would be.

TAXES DISCOUNTED

Fear is expressed among business men of the non-speculative type that taxes have not been sufficiently discounted by managements and by investors or speculators in stocks.

The full impact of taxes probably will not be felt 'till the latter part of 1936. And no one knows at the moment how heavy the reserves should be to meet this unknown quantity.

Few businesses have as yet realized the cost of the social security law, which is admirable, of course, but which does not finance itself.

Furthermore, states undoubtedly will resort to heavier taxation to pay for the relief load being shifted to their shoulders again.

The relief situation has not been met squarely by the United States. When a state shifts it to the federal government, or when the federal government shifts it back to the state, nothing has been solved. In fact, the cost has been increased by haphazardness, and the human beings who are the charges have been cruelly tossed around.

F. D. R. NEED?

To close observers of the Roosevelt administration, the chief need seems to be for some clear-thinking executives who know how to administer large sums.

(This column has mentioned this several times previously in the last two years or so. The need is more apparent than ever.)

If the administration could obtain a few some such executives from corporations—men who are unknown publicly, but who keep the wheels moving in private industry—many of its troubles would be ended.

These executives not only are capable men, but they are sincere. They aid, not hamper, any social developments, for when entrusted with a task, they would mind their own business and bring about a smoothly operating machine.

The government could afford to pay such men \$100,000 a year.

IT IS BEING DONE

It has always been truthfully said that a good farmer anywhere can support himself and family very well—"blow hot, blow cold." The farmer is the most independent person in the world if he is a good farmer. He always has plenty of food in his cellar; plenty of produce in his barns and cribs. He should be always able to look any man in the face and tell him to go to the Deuce.

Here is an illustrative story told by the Mayor of a small town in Arkansas:

A mother with seven children started out last Spring with \$250 worth of seed planted on a quarter acre of ground on which she supported her family through the Summer. On this plot of ground the mother and her brood raised ten bushels of beans, twenty bushels of cucumbers, eleven bushels of potatoes, four bushels of onions, besides quantities of peas, carrots, etc., which she sold to a local market and traded for some pigs. In addition she put up 180 cans of vegetables for winter use.

Merchants and bankers of the local community gathered in The Castleton last evening to hear talks by representatives of the Federal Housing Administration on new ideas which have recently been placed in operation.

The speakers included Walter Miller, field representative of the FHA for Western Pennsylvania; and W. J. An open discussion followed the addresses and it was brought out that the banks here are co-operating fully with the FHA in all its operations here.

President DeLace Cole, of the Retail Merchants Division of the New Castle Chamber of Commerce, announced this morning that a meeting of the merchants will take place Friday morning, at 10 o'clock when Christmas closing hours will be discussed. Those participating in the sale have been requested to have their advertising copy in the office of the Chamber of Commerce, not later than noon, Friday, December 6.

At this point the long suffering customer broke in with: "I wonder if you could provide me with a neat purple stamp with a dinky perforated hem, the tout ensemble delicately treated on the reverse with musilage. Something at about 3 cents."

No Direct Relief If W.P.A. Jobs Are Refused, Is Order

State Order Is Sent To Head
Of Area Relief Dis-
trict Here

Announcement was made today by James W. Moorehead, executive director of Area 10, Emergency Relief, that all persons not reporting for work when so notified by the placement agency, will be stricken from the relief rolls immediately.

The authority for the announcement by Mr. Moorehead comes from an action by the state board, expressed in the following words:

"Resolved, That persons notified to report for work by the Works Progress Administration, and who do not report for work be stricken from the rolls of direct relief. Where it is impossible for these persons to accept work relief through sickness, etc., their case will be passed upon by the Review Boards of the County Emergency Relief Board and the Review Board's decision will be final. This procedure becomes effective Monday, December 2, 1935."

Should there be any reasonable cause for failure to report for duty, this can be justified by explanation before an impartial review committee. Forms for the appeal can be secured in the local relief offices, and the decision of the review board is to be final.

The order here may hit a number of cases here who have not gone to work due to the fact that their direct relief amounted to considerably more than their wages on a works progress would. The wage for labor on projects is \$57.20 per month. Direct relief in some cases amounts to \$17 per week.

Film Star And Director Well-

Fisticuffs

(International News Service)
HOLLYWOOD, Cal., Dec. 4.—
Hollywood had another fistic bat-

tle of filmland notables chalked up
today but both combatants were in-
clined to pass the affair off as "just
an argument between friends."

The participants were Spencer
Tracy, film star, and William Well-
man, director, who exchanged blows
in a Hollywood night spot following
an argument over an unnamed film
beauty.

Wellman admitted he hurt his
hand when he planted a blow on
Tracy but the latter denied he re-
ceived a black eye. Only two blows
were struck—one by each.

Convention Is Well Under way

Nazarene Preachers Have Opening Meeting On Tuesday Night

ALLIANCE PASTOR IS PRESIDING OFFICER

REV. C. WARREN JONES

The annual mid-year convention for the preachers of the Pittsburgh district, Church of the Nazarene, received an auspicious start Tuesday night in the local church, Falls and Beaver street.

Ministers and their wives from points all over the district, which includes Western Pennsylvania, Eastern Ohio, and Northern West Virginia, arrived early in the evening and were present for the initial session. The convention is being continued today, tonight and Thursday.

Rev. C. Warren Jones, of Alliance, O., the district superintendent, is the presiding officer for the convention.

Tuesday Night Program
Last night's program included an inspiring song service led by Mrs. Corbitt, wife of Rev. C. T. Corbitt, of Dayton, Ohio. An address of welcome was extended to all by the local pastor, Rev. F. C. Lehman, and Rev. Charles Hanks, pastor from the Arlington street church of Akron, O., responded on behalf of the visiting pastors.

The address of the evening was brought by Dr. J. G. Morrison, of Kansas City, Mo., who is secretary of the foreign mission department of the Nazarene church. In his unique way he spoke on the subject, "Faith," using Paul's words, "Fight the Good Fight of Faith."

This morning the services were confined to local problems, peculiar to those met by pastors and their wives. This afternoon Dr. Morrison, together with the following missionaries, Rev. and Mrs. William Eckles, from Japan, Rev. and Mrs. L. F. Fere, from Africa, Miss Agnes Gardner and Miss Ruth Rudolph, from India, presented a very interesting missionary program.

This evening at 7:30 o'clock another inspiring message will be brought by Dr. Morrison. This service is open to the public, in addition to the delegates.

Sees Stabilization Of Coal Industry
(International News Service) PITTSBURGH, Dec. 4.—"After floundering in a sea of uncertainty since its inception, the bituminous coal industry in Pennsylvania and the rest of the nation has reached a turning point, and following a short period of transition, it will become a truly stabilized industry."

That was the optimistic prediction made today by Charles F. Hoffer, Jr., chairman of the National Bituminous Coal Commission created under the Guffey Stabilization act, who told International News Service the government is doing all in its power to help the industry and that the rest was up to the co-operation of coal producers.

Mickey Cochrane Denies Deal With White Sox Team

Would Not Give Walker, English And \$25,000 For Simmons

(International News Service) DETROIT, Dec. 4.—"I wouldn't give that much for Simmons," today commented Manager Mickey Cochrane of the Detroit Tigers in reply to the report that Al Simmons, veteran Chicago White Sox outfielder, would come to the Tigers for \$25,000 and two players.

The players mentioned in the deal were Gerald Walker, Tiger outfielder, and Gilbert English, a Detroit infielder.

Cochrane said he had no intention of letting Walker go from the Tigers. He also claimed the deal with Chicago had not been discussed since the minor league meeting at Dayton, O., recently when he told the White Sox officials that their price tag on Simmons was too high.

"Slum" Building Program Needed

Senator Wagner Proposes \$65,000,000,000 Program

Today

(International News Service)
NEW YORK, Dec. 4.—The United States needs a rebuilding program calling for expenditure of \$65,000,000,000 over a period of ten years, U. S. Senator Robert F. Wagner declared at the "abolish the slums" meeting of the national housing conference.
"One-third of our total population live in homes injurious to their health and endangering their safety and morals," he said.
"The rebuilding program which this country needs is a somewhat expenditure, almost entirely by private agencies, of about \$65,000,000,000 over a period of ten years, would prove a boon to every trade."
"It would absorb the technological unemployment caused by the machine process. It would place our national prosperity upon the sound foundation of a healthy condition in the durable goods industries."

First Skirmish On Utilities Law On December 18

Will Take Place In Courts At Easton—Issue Is Of Minor Importance

(International News Service)
PHILADELPHIA, Dec. 4.—With the Security and Exchange Commission as defendant, the first open court scrap over the public utility holding company act of 1935 will take place on the afternoon of December 18 at Easton.
U. S. District Judge William H. Kirkpatrick will preside at the legal skirmish to decide a somewhat minor issue, but one that may lead to a quick decision on the legality of the whole law.
The hearing will be on a petition by the Lehigh Valley Transit company of Allentown, which is seeking to reorganize under section 77B of the national bankruptcy act. The transit company, which operates bus and trolley lines in Northampton, Lehigh, Montgomery and Bucks counties, has asked the court to decide whether it and the Easton Consolidated Electric company, a subsidiary, must register under the holding company act.
Because it is under the supervision of the federal court, the company seeks instructions on whether it and the subsidiary are in the exempt class outlined last week by SEC. The company also had petitioned the court to decide whether it must submit its reorganization plan to SEC.

HANEY'S

MY NEW YORK

By JAS. ASWELL

(Copyright, 1935, by Central Press Assn.)
NEW YORK, Dec. 4.—Paris dress-makers are conspiring to pick the ten best-dressed American women—i. e., their ten best customers. No body, so far, has had the temerity to award this palm to Sally Rand, who deserves it.

From San Antonio, Tex.: "Why don't you stop prating about those so-called celebrities and famous people up there and tell us something instructive about New York?" Item: there are more telephones in the Hudson Terminal Building than in Greece and Bulgaria combined.

Movie-goers are blinking to discover that James Melton not only looks a bit like Lawrence Tibbett but sings a bit like him too. A bit. One of the clowns in Dave's the other night suggested calling such people Tibbetters.

George M. Cohan has written another play and called it "Dear Old Darling," to be produced in mid-winter. A sample of the affection in which he is held by the grease-paint fraternity is to be found in the remark attributed to George Abbott: "A play with that title could be Cohan's autobiography."

And speaking of George Abbott, his newest farce, "Boy Meets Girl," is the first truly hilarious footlight offering since "Personal Appearance." It has the verve and insanity

of "Once in a Lifetime," and in spots it is even funnier than that classic of a few years back. Moreover, in it two mimes show that they have the talent for stardom in the Hollywood which the piece lampoons: Joyce Arling and James MacColl, who has a British accent a yard wide and so convincing that you immediately suspect that he was born in New York. Which, by the way, he was.

"Boy Meets Girl" and "Three Men On a Horse"—the town's oldest and roughest farce smash-hits—beam at each other from opposite sides of the same street, 45th. And both are Abbott productions.

George McManus, the papa of "Jiggs" believes bars should be for men only and quips: "The average woman lingers over a cocktail waiting for the olive to get ripe while others are waiting behind her for a chance at the counter."

Now that a coterie of jazzmasters, including Rudy Vallee and Paul Whiteman, are trying to restrain the radio broadcasters from airing their recordings of popular pieces without shelling out for the privilege, Ozzie Nelson is mailing hundreds of his own records to the ether studios, suggesting that they be played to the armchairs gratis. Reason: publicity.

Incidentally Nelson is ready to go to court on the side of the radio bigwigs and has offered his services as a lawyer. He is qualified to practice before the Jersey bar.

Game note: parlor diversions for 1936 will be strong in "stock market" and "big business" games. Half a dozen varieties of these are going strong in the bazaars. Also the sale of lead soldiers—to adults—has jumped and one of the big toy martias has a dozen customers who have spent more than \$1,000 apiece on the miniature battle equipment.
Both of these trends point sharply in the direction in which the winds of the times bloweth.

College Students Hear Discussion On Immigration

(Special To The News)
NEW WILMINGTON, Dec. 4.—Colonel D. W. McCormack, United States Commissioner of Immigration, and personal friend of Francis Perkins, Secretary of Labor, spoke at Westminster College chapel yesterday on "Immigration Problems."

Every 24 hours, according to Colonel McCormack, an immigrant is unjustly deported from this country because of legal technicalities. On the other hand, criminal aliens, instead of being deported, are kept in this country by prison sentences. Colonel McCormack is a New Dealer and interested in reforming existing immigration laws. He deplored national situations over the world that made for agitation against aliens holding jobs while natural-born citizens went jobless.

When the appropriations for parks were tentatively set no provision was made for repairing the dance pavilion. The first amount asked was \$6,000. The city, it was intimated, may rent out the pavilion at another rental rate carrying a stipulation that the renter pay the cost of repairs and carry the insurance. If this is done a long term lease will be given. This will probably be discussed further before a definite move is made.

Grove City Board Names Dr. Rossman

(Special To The News)
GROVE CITY, Dec. 4.—Dr. W. F. Rossman was elected president of the Grove City Board of Education, at a meeting when three former members retired and three others were sworn in by W. A. Redmond, retiring president. Dr. B. A. Montgomery was chosen vice-president at the organization meeting.

The three retiring members have combined services on the board of more than 40 years. Mark W. Graham has served continuously for more than 20 years; W. A. Redmond, president since 1933, has served 17 years; and C. G. Kennedy, four years. The new members are W. J. Mann, Floyd Elliott and John Campbell.
The new board is investigating the delinquent per capita tax list, which has mounted to about \$10,000, and will hold a special meeting December 9th to take action. It was also decided to reimburse the sinking funds for money borrowed in emergencies.

"Medicine men" in Africa recently astonished a group of medical experts by curing wounded natives by burying them in mud up to their necks. When the soil was examined it was found to contain rich deposits of radium, so rich that American radium laboratories were driven out of the field by low price radium produced from African deposits.

"Radium may someday be responsible for preserving youth," Dr. Gable asserted. He told of an experiment in which tadpoles were placed in two bowls, one of which contained radium energy. The tadpoles in one bowl grew legs and turned into frogs; tadpoles in the radium-tempered bowl remained tadpoles for over a year.

The power of radium was suggested by Dr. Gable when he said that fifty cents worth of radium placed on a man's head would kill him in two hours and not leave a scar.

Council is yet about \$23,000 from a balanced budget, according to solons who struggled with proposed 1936 appropriations Tuesday at City Hall. With an assessed valuation of \$50,800,000, a nine mill tax for general revenue would bring \$457,200. Estimated income would raise this sum to about \$570,747, they report. However an estimated tax shrinkage of \$90,000, would leave \$480,747. Tentative appropriations, made up to 4 p. m. Tuesday, amounted to \$504,000.

Among the estimated receipts for 1936 is listed \$50,000 delinquent taxes; \$15,000 mercantile tax; \$11,000 liquor license; \$10,000 police fines; \$4,023 golf; \$6,900 school board's share city treasurer expense; \$4,278 rent; \$1,569 pole and wire tax; \$5,729 Cascade Park and other receipts from various sources.

When the appropriations for parks were tentatively set no provision was made for repairing the dance pavilion. The first amount asked was \$6,000. The city, it was intimated, may rent out the pavilion at another rental rate carrying a stipulation that the renter pay the cost of repairs and carry the insurance. If this is done a long term lease will be given. This will probably be discussed further before a definite move is made.

Will Propose U. S. Pay Taxes On Slum Projects

(International News Service)
WASHINGTON, Dec. 4.—Senator George (D) of Georgia will introduce in the coming session of congress a bill permitting the federal government to pay city taxes on its low-rent housing projects throughout the country.

This was announced today by Secretary of Interior Ickes, who explained that under existing law funds cannot be released for this purpose. He did not anticipate any objections to enactment of such legislation.

At the same time Ickes denied reports that there were not suf-

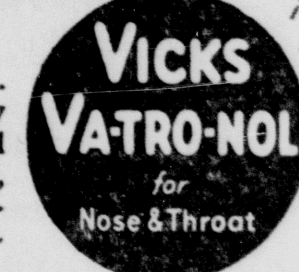

ficient contractors throughout the country to swing the \$800,000,000 housing projects into operation by Dec. 15, the deadline set for peak activity by President Roosevelt. Ickes refused, however, to predict the number of workers who would be employed on that date.

Five Desperadoes Are Being Hunted

Shoot Way To Freedom In Oklahoma — One In Break Killed

NOTORIOUS GANG MEMBERS ESCAPE

(International News Service) McAlester, Okla., Dec. 4.—A great circle of grim, heavily armed, alert possemen surrounded a mountain 16 miles east of here today, awaiting the command to close in on the five desperadoes who yesterday shot their way out of the Muskogee city-federal jail.

Sheriff H. H. Sherrill telephoned here late last night that his men had surrounded the five desperate killers, and asked that a plane be sent to help him locate the exact mountain hiding place of the jail breakers.

The locale of what may be a desperate gun battle is a rugged, heavily wooded mountain five miles southeast of Hartshorne.

Members of Notorious Gang. Four of the five fugitives are members of the notorious "Irish" O'Malley bandit and kidnap gang—

Dewey Gilmore, Russell Cooper, Leonard Short and Dan Heady—called by veteran peace officers one of the worst gangs that ever roamed the southwest. They were awaiting sentence for a \$14,000 bank robbery at Okemah, Okla. Irish O'Malley is serving a life sentence for the kidnapping of August Luer, Alton, Ill., banker.

The fifth fugitive is Danny Garrett, awaiting trial on a Mann act charge.

A sixth jail breaker, Ed Blackburn, was fatally wounded by Muskogee officers in their vain attempt to halt the break. In the withering exchange of bullets Chief of Detectives Ben Bolton was shot in the head. He is in a critical condition.

Headly was wounded, but was picked up by his fleeing comrades.

Guard Ordered Out.

McAlester, Okla., Dec. 4.—A full company of Oklahoma national guardsmen was marshaled into the search today for five desperate criminals—four of them members of the notorious "Irish" O'Malley gang—who escaped from the Muskogee city jail yesterday in a gun battle with police and fled into the Kiamichi hills near here.

Sheriff H. H. Sherrill of Pittsburgh county telephoned his office here that he believed one part of the gang had been spotted on a hill near Hartshorne. He asked that airplanes be directed to fly over the spot to direct the hunt.

The sheriff also expressed the conviction that the gangsters had split into two groups when they abandoned their car seven miles east of Clayton late yesterday.

Ordered out by Gov. E. W. Marshall, the guardsmen joined scores of posse and federal agents in one of the greatest manhunts the Oklahoma hills—long used by criminals for a hideout—have ever witnessed.

Bloodhounds from the state penitentiary here and airplanes from Tulsa have been thrown into the search.

Aged Mail Box Locks 'Can Take It'—For 62 Years They Have!

Three weather-blackened locks which have guarded the mail dropped into any number of New Castle letter boxes for an unknown length of time were singled out from a heap of worn locks at the post office today as locks which have probably given Uncle Sam the most faithful service of any a lock employed as a silent guardian of the mails anywhere.

Ordered in because the boxes they were on had reached the discard stage, the 62-year-old locks—as good as new except for appearance—were set aside today by Superintendent of Mails David B. Thomas to show to friends before he assigns them to other boxes again.

Never Knew "Vacation"
"I don't know but I'd think these locks have set some kind of a record," Mr. Thomas said. "For 62 years they have been in constant service on outdoor boxes—and that's a long time."

Postmaster Richard A. Steen, Assistant Postmaster James G. Leslie and others at the post office agreed with him.

The three locks are identical and bear the date "December 23, 1873" on one side. The government, it is believed, put them into use that year but in what city no one knew. Many locks on the boxes here are first used in larger cities and then sent here from Washington.

Superintendent Thomas dug deep into a box of locks while he exhibited the aging locks, but he could find none any older.

Often Better Than New.
"Some of these older locks," he added, "work better than some of our new ones. Of course, we get poor equipment every now and then like anybody."

The average length of service of a mail box lock could not be estimated by Mr. Thomas because no particular record of the locks are kept. The older locks had the date stamped on them.

The locks outwear the boxes in most cases, it was pointed out. The batter of the elements often proves damaging to the hinges on the boxes while the locks suffer little.

rectly or through their parents. The number of aliens subject to deportation for illegal entry is probably less than 100,000. Those not able to prove the legality of their entry would swell the number to about 400,000, he said.

In the audience were close to one hundred people; a very representative group from many of New Castle's leading organizations.

An open forum was conducted at the close of the address and the commission answered numerous questions concerning the proposed legislation.

War Department Approves Plans For Edensburg Viaduct

Clearance Provided In Event Of Use Of Mahoning River For Canal

By ARTHUR C. WIMER
(Special Washington Correspondent New Castle News)

WASHINGTON, D. C., Dec. 4.—The War Department has paved the way for the proposed new bridge at Edensburg by approving the plans and specifications of the structure.

Pointing out the new bridge would replace the existing unsatisfactory bridge, the department stated:

"There is no navigation on the Mahoning river at the present time. The proposed route of the Lake Erie-Ohio River Canal follows the valley of the Mahoning river in the vicinity of the proposed bridge. The plans for which approval is requested provide a clearance of 250 feet between piers and a maximum vertical clearance of 27 feet above the proposed elevation of 780. It is believed this bridge will make reasonable provision for navigation on this waterway, if and when the canal is built."

Letter carriers, making their regular rounds here today, took stacks of mail out of street letter boxes, but in just one case did an envelope carry this address:

"Santa Claus, North Pole."

Penciled in a childish scroll, the sealed, white envelope bore no stamp.

Post office authorities will either turn the letter over to Santa when he comes for a holiday visit at the stores or assign it to its dead letter department—it'll likely go to the former.

Each Christmas season several Santa Claus letters come out of the mail boxes.

Plan Test Flights For Mail Service Across Atlantic

(International News Service) OTTAWA, Ont., Dec. 4.—British and Canadian aviation experts leave here for Washington after an 11 day parley here resulting in the decision to start test flights next year for a regular airmail service across the Atlantic. It is understood the spokesmen for the three British empire governments will seek the co-operation of American aviation officials in the project.

While the route decided on was not disclosed, it is understood it will be generally following the North Atlantic shipping lane from Nova Scotia to England with stopovers in Newfoundland and Ireland. Other routes discussed were via Bermuda and the Far North one by way of Greenland.

Following surveys early next year, experimental flights will start and the objective is two flights in each direction weekly.

Why Il Duce Is Taking Chances

Realizes Necessity Of Speedy Campaign Against Ethiopian Forces

DELAY WOULD PROVE FATAL

Central Press Washington Bureau 1900 S. Street

By CHARLES P. STEWART
Central Press Staff Writer
WASHINGTON, Dec. 4.—Official Washington doesn't give an ounce of weight to any of the information it receives concerning the detailed progress of events in Ethiopia.

All accounts from Rome indicate uninterrupted Italian successes.

All accounts from Addis Ababa indicate that the Fascist forces are in a bad way—not only held in check but suffering from malaria, dysentery and a miscellany of tropical diseases.

SPEEDY CAMPAIGN NEEDED

In a general way, however, all experts (state, departmental, military and medical) agree that Premier Mussolini realizes the necessity of hurrying up his campaign.

The substitution of Marshal Badoglio for General De Bono as the Italians' field commander is spoken of as convincing evidence of this.

De Bono, war department authorities say, has the reputation of a competent, cautious warrior—but slow. Badoglio is referred to as a whirlwind fighter; not so safe as De Bono but speedier—if he "gets away with it."

DISEASE AND SANCTIONS

Doctors of the United States public health service concur that Italy's

forces undoubtedly will be so disease-stricken if kept long in the Ethiopian climate as to disqualify them, 50 per cent or so, for military activities.

Soldiers agree that a desperately sick man can't fight.

And diplomats and commerce department statisticians point out that Mussolini will be starved out shortly by "sanctions," if the remainder of the world remains consolidated against him.

DELAY FATAL

"It's all very well," as a commerce department official remarked to me, "for Benito to warn that he will consider it an act of outright hostility if an oil-producing country cuts off his supply of oil (he has none of his own) from him."

"But what will he do about it?" "Without oil he can't fight even Ethiopia. How, then, with his supply cut off, can he fight the oil-producing country also?"

But Italy has, from all accounts, enough reserve oil to last for about a year—for warfare against Ethiopia; not against any really formidable power.

Obviously, then, it must rush its Ethiopian campaign, before its limited oil supply is exhausted.

BRITAIN'S HASTE

Suppose Italy manages to conquer Ethiopia before its oil and cotton and steel and other supplies are exhausted.

It will, of course, set up a puppet Ethiopian government, which will make peace with Rome. Peace is all that the League of Nations has been professing to strive for—but Britain, at least, will not like this kind of a peace. Its whole aim has been to prevent Italy from obtaining such a foothold in northeastern Africa.

Yet it will be mighty hard to stop Italy, once it has DONE IT.

From Britain's standpoint the time is NOW, before Italy has registered.

TO BLUFF IT?

Il Duce's plan is to "bluff it through" before the League of Nations can "gang" him.

It may work; some diplomats think so.

Meanwhile Japan is gobbling northern China—with its eyes on the southern coast and the Philippines and maybe Hongkong and Singapore and Java and India.

It is a period of readjustments.

Precautions For Lily Pools

STATE COLLEGE, Pa., Dec. 4.—A. O. Rasmussen, extension landscape architect at the Pennsylvania State college mentions some precautions that owners of water gardens and lily pools should take at this time of the year.

"In many instances fish and tender water plants should be removed to safe winter protection. The hardy lilies and the larger fish may be allowed to remain.

"Large pools should have the water level lowered to about one-half to three-fourths of their normal levels. This will permit equalization of outside pressure when the ground freezes. Many home owners drain their pools and fill them with leaves, litter and compost.

"Placing evergreen boughs over the top will help to shed snow and prevent the filler from packing too tightly. The boughs also are an attractive cover for leaves or other material. With this special care the pool is usually safe from cracking and the hardy lilies will survive the worst winter weather."

Councilmen Continue Efforts To Compile New Budget For '36

Council and officials-elect convened informally this morning at city hall and after two hours of discussion it was seen that little progress was being made.

In fact the session broke up at noon, to resume at 2 p. m. without anyone having told Mayor-elect Charles McGrath for what purposes approximately \$25,000 in excess of 1935 expenditures had been appropriated.

It was the opinion of some of the city hall folk and those who will take office in January that the appropriation makers may have to revert to the old system so that every appropriation can be understood thoroughly.

Incidentally it might be stated that, during this morning's meeting, the mayor-elect asserted that the estimated appropriation for the department of public affairs which he will head, is satisfactory to him.

The estimated appropriation as submitted by Mayor Charles B. Mayne does not provide for any additional police nor a restoration of wages. However, it does provide for \$1,000 which may be used for equipment.

As soon as a check is made this afternoon of the appropriations for all purposes in city government life, the question of restoring wages, adding man-power and buying new equipment may be decided.

Against Tax Increase
The incoming mayor stated emphatically at this morning's meeting that he is not in accord with

any plan that will result in an increase of taxes in 1936.

Relative to the question of restoration of wages, he declared that until he knows more thoroughly about present estimated appropriations, he does not believe he or his colleagues-elect should discuss them. There has been some difficulty with the new budget forms decreed by the state. Some appropriations which formerly were assigned to a certain department now are assigned to other departments.

McGrath asked why the old budget appropriations could not be compared with the new budget system. Finance Director Albert Hoyland replied that the state demanded the new forms be used for budget purposes.

"The outgoing council is trying to do everything they can. They want to make a budget that will prove satisfactory to the incoming council," Hoyland told McGrath.

"You are preparing a budget for the city of New Castle and not for the incoming council," retorted the mayor-elect. "How can we answer intelligently concerning things of which we know nothing?" he asked.

"You can prepare the budget. When I take office I will handle the department as I see fit," he added.

"I suggested last Saturday that the outgoing heads and the incoming heads of departments confer. You are not familiar with the department you are to head," Hoyland said to McGrath.

"I asked for a comparison of both budgets," replied McGrath for the purpose he said of finding out what purposes the tentative appropriation of \$25,000, more than 1935 expenditures was made.

"The budgets do not relate at all," Hoyland answered.

Not Getting Anywhere
"We are not getting anywhere. Take Davies (public safety) department for instance. I understand Davies and Rice talked over the situation," Hoyland added.

"So did Mayor Mayne and I," McGrath informed Hoyland.

"The only item new I asked for is \$1,000, to be used as a payment with two old cars for new cruisers. If this is agreed to," Mayor Mayne interpolated.

At this point Hoyland said that the new council has not given any inkling as to whether or not they intend favor added man power to the fire and police departments.

"I am not in accord with any plan that will raise taxes for 1936," said the mayor-elect.

Further, the mayor-elect notified council and his colleague-elect Fink (Rice was not present): "I am satisfied to take the department (appropriation) as it now is." The present appropriation does not provide for new men.

Some of the councilmen said their estimated requirements for 1936, are higher than the appropriations and expenditures for the present year.

"The wages in the proposed budget are the same as were paid in 1935," Hoyland told colleagues.

"The question now is," said Davies "how many more police and how many more firemen should we have in 1936; also new equipment." He inferred that it is economical to buy new equipment when old equipment is worn out and costly to repair.

At this point the mayor-elect said

that the estimated appropriations for 1936 exceed those for 1935.

It is probable that all of the items will be checked and double-checked this afternoon after which the necessary sum to carry on the city's government may be learned.

Councilman-elect Rice did not attend this morning's session but was due to be present at the afternoon meeting.

There is an undercurrent feeling in city hall circles that providing the city government can get along without new equipment and added man power, a partial restoration of wages may be made, providing it does not raise taxes.

During this morning's meeting Safety Director Davies said that one question to be decided is that concerning added employees to which Streets Director Butler added: "There is another question. What about the men being paid 36½ cents an hour and on half time?"

"That never was right," Hoyland declared.

"I might say that all employees are under consideration relative to wage restoration requests," Davies asserted.

"I do not believe that the effort of one organization alone should be considered," said Mayor-elect McGrath. "The street department employees are not in a position to carry on a campaign."

"I believe in every man getting a fair deal," Butler stated. He made a plea for higher wages for the street department men.

Germany Has New Warship For Hitler

(International News Service)

BERLIN, Sept. 19.—When Adolf Hitler attended a two days' firing practice of the German navy he boarded for the first time a newly built German warship, the "Grille" (the "Cricket").

The "Grille" will serve as an admiralty inspection and trial ship. She has special rooms for the Supreme Commander of the German defence forces, Adolf Hitler, for the war minister and for the commander-in-chief of the navy.

Besides carrying the Fuehrer and the heads of the navy to maneuvers and inspection trips, the "Grille"

will be used to draw targets for destroyers and submarines, and for experiments with listening instruments and other technical apparatus.

Outwardly the "Grille" looks like a yacht. Her inner outfit is warshiplike simple.

The "Grille's" speed is 20 knots. She is armed with three 10.5 cm guns, two 3.7 cm double anti-aircraft guns, and two machineguns.

Her length is 115 meters, breadth 13.5 meters, draught 3.43 meters and displacement 2,600 tons.

Her name is the same as one of the first Prussian warships which in the war of 1864 fought against the superior Danish fleet on April 14 and 24.

Things work out nicely. By the time a blade is too dull for shaving, it is time to cut your finger nails again anyway.

But you'll notice that nations reluctant to make war seldom have any "border incidents."

Minnesota Draws Two
Places, Riley Smith
Picked As Quarter-
back

By DAVIS J. WALSH
International News Service Sports
Editor.

(Copyright, 1935, By International News Service)
NEW YORK, Dec. 4.—Based upon the findings of staff men and qualified observers in all sections of the country, the International News Service today is making public its all-American football team for the season of 1935, as follows:

Position Player College
End—Tinsley, Louisiana State.
Tackle—Smith, Minnesota.
Guard—Weller, Princeton.
Center—Lester, Texas Christian.
Guard—Michaels, Villanova.
Tackle—Wideth, Minnesota.
End—Moscrip, Stanford.
Quarterback—Smith, Alabama.
Halfback—Bewanger, Chicago.
Halfback—Wilson, South. Meth.
Fullback—Grayson, Stanford.

Thus, we are paying off on first money only and, in some cases, the decisions may seem to have been drawn a little fine. In fact, not more than four choices—Bewanger, Wilson, either Wideth or Smith and Weller—seem to need no defense whatever. They belong so definitely as to defy argument.

Two From Minnesota.

Where controversy begins, perhaps, is in awarding a team like Princeton only one place and Minnesota two. But this pair were great because they were teams, with one individual practically as good as another. Many selectors are listing Lea of Princeton at end, but I'm assuming the responsibility of dropping him. I've seen the lad. He's all right—and that's about all. It was a struggle to leave Biggs of Minnesota out of the backfield. But Grayson is better now than at any time in three years—and in 1933 and 1934 this was good enough. Besides, Wideth and Smith, almost equally adept, probably had more to do with Minnesota's success than any other single factor. They got some robust competition for their places, at that, from a field of excellent tackles, including Sarno of Fordham and Paterson of Auburn.

Spiritual Bids.
Another Auburn man, Gilbert, put on a spirited bid for the center position, closely pressed by Muller, Stanford; Herwig, California; Jorgensen, St. Mary's; and Jones, Ohio State, among others. Personally, I liked Cullinan of Princeton, who yielded to insistent pressure on Lester, so many insisting that he is the finest thing that has happened in years.

Daughters of Holy Cross was something that Tinsley, L. S. U., apparently isn't an inspired passer. But Tinsley topped him in other departments, according to unbiased advisers. Train of Yale and Wendt of Ohio State were good men in a field of many. But Moscrip did everything they did—and then won

three important games with field goals. It is almost unfair to cite a few isolated cases like these.

Smith Is Best.
That's frankly an apology for those who may be slighted. For the remaining team members, not yet mentioned, we feel that apologies would be strictly superfluous. Michaels has been a great man on a more or less obscure team for three years. He's therefore due.

As for Riley Smith of Alabama, there seems no limit to his versatility. Runner, passer, kicker, blocker—thinker. As a quarterback, they call him "the coach on the playing field". It appears that he can do everything with a football, except masticate it.

Four games have been arranged for this month as a warm-up for the Section Three W. P. I. A. L. card that starts the first week in January.

Following the Sharpsville High game next Thursday night, Coach Gardner will bring his Grove City High floormen to New Castle on the night of December 17.

DENIES SALE OF ST. LOUIS TEAM

(International News Service)
MONTCLAIR, N. J., Dec. 4.—Though reports from St. Louis put the sale of the St. Louis Browns to a group of business men headed by George Siegel within a few weeks in the "sure thing" class, Louis B. Von Weise, president of the club, today disavowed any knowledge of the transaction.

"It's news to me," he said at his home here.

Mussolini is a wonder. He's the only conqueror who ever won great victories without letting anybody get hurt.

Finnegan won the game for the Emerickmen in the extra-period with a field goal and foul.

At the end of the first period the team coached by "Whitey" Silander, former Westminster star, led 2, but at the end of the first half the East Brookers had managed to get ahead 10 to 5. The third period found the Butler Countyers forging to the front again with seven points to three for the Emerickmen, but East Brook clung to a 13 to 12 lead as the third period ended.

The end of the regulation game found the East Brooks and Zellenople tied at 16-16. In the extra-period, East Brookers held the Zellenople scoreless, winning the game by three points in one of the most exciting games ever played at the Zellenople High floor.

High scoring honors in the game went to Hall of the East Brooks with seven points and to Scheidmante of the losers with six points. Finnegan and Kuth also were in the limelight for the Emerickmen.

HERE AND THERE IN SPORTS' LAND

Winston Guest leads the indoors polo rankings according to a list published at New York today by the Indoor Polo association of America. Guest, ranking at nine goals outdoors, is the only indoor start to receive top ranking of 10 goals. There were no nine goal men on the list but one eight goal player was named. Arthur Borden of the New York A. C. was raised one goal to eight. James Mills is the only other eight goal man in the indoor game.

Tony Herrera, once a star in this section, has been relegated to the semipro class by Pittsburgh promoters and will appear in that role on the Ken Overin-Al Quail card at Pittsburgh, Monday night. Tony has been matched to fight Patsy Hennigan of Pittsburgh, who two years ago, defeated Johnny Banko of West Pittsburgh. Another bout that has been arranged will find Jack McAvoy, the British middleweight champion, opposed to Babe Risko, U. S. middleweight champion in a non-title bout at New York, December 20.

Rovers J. Morrell, Jr., of Los Angeles, has been elected captain of the Navy academy football team. He attended Southern California before attending the Naval academy. Leo Obrzut, center on the yearling college football team this year, has been named captain of the 1936 Lions.

Illinois and New York state boxing commissions have agreed to select a world featherweight champion. Freddie Miller of Cincinnati, is recognized by the National Boxing association as champion but his title is not recognized by New York and Illinois, non-members.

Texas Christian And L. S. U. Picked For Sugar Bowl

New Orleans Officials Select Two Southern Teams

(International News Service)
NEW ORLEANS, Dec. 4.—Louisiana State University today sought permission of the Southeastern Conference to participate in the second annual "Sugar Bowl" grid classic, to be played here New Year's Day.

L. S. U. and Texas Christian University were selected as the principals by the committee in charge last night.

Warren V. Miller, president of the Mid-Winter Sports Association, said today that both schools had definitely accepted the invitation, and that he had little doubt L. S. U. will be granted permission to play as Tulane was readily allowed to participate in last year's game.

Texas Christian's team was located at Tullahoma, Tenn., enroute to California, where the Horned Frogs play Santa Clara, Saturday.

Both teams have been defeated once this season. T. C. U. by Southern Methodist 20 to 14, last week after winning 10 straight games. The Frogs whipped Howard Payne, North Texas Teachers, Arkansas, Tulsa, Texas A. & M., Centenary, Baylor, Loyola, Texas and Rice.

L. S. U. lost its opening game of the season to Rice 10 to 7, but thereafter built up an impressive record with wins over Texas, Manhattan, Arkansas, Vanderbilt, Auburn, Mississippi State, Georgia, Southwestern and Tulane.

Joe Louis Can Pack Them In

Estimate Gate Of \$125,000 For Louis And Paulino Bout

JOE LOUIS HAS POPULAR APPEAL

By PAT ROBINSON
International News Service Sports
Writer
NEW YORK, Dec. 4.—Joe Louis today stands out as the greatest box office draw in the world.

Neither Jack Dempsey nor Gene Tunney had a thing on Joe at the gate and, given some of the stiff competition they had, he probably would make the million dollar gate rule rather than the exception.

He has the golden touch—a touch in his devastating fists.

That touch soon will put him in the millionaire class and, if your Uncle Sam weren't already in it, it would put him in the same class. For your Uncle Sam is now tapping Joe for almost 50 per cent surtaxes on everything he earns.

Consider for a moment Joe's approaching battle with old Paulino Uzcudun in the Garden, December 13. In the aged Basque Joe has an old has-been to knock over—a fighter who has been washed up for several years—and yet with a \$16.50 top the pair will surely draw at least \$125,000.

In other words, a capacity crowd is willing to pay a king's ransom to see Louis hammer a human punching bag.

To get a true perspective of his amazing box office appeal, you have only to compare these figures with the \$11,000 a great fight card drew in the Garden last week.

Two hours after the Louis-Paulino sale opened, one box office man alone sold more than \$5,500 worth of tickets and within 24 hours more than \$15,000 worth had been sold, a sure indication that the ticket scalpers will reap another harvest as they have in all of Joe's recent fights.

Joe's end of his fight with Max Baer was \$217,000, so it is not unreasonable to suppose his income this year will net him more than \$250,000.

Tried to Hold Tiger

The identity of the football enthusiasts who rushed on the field and tried to help Dartmouth hold Princeton's rush is known. The twelfth man on the Indians' eleven is Mike Mesko, Rahway, N. Maxie Rosenbloom Plans To Retire

Veteran Boxer Will Wed Mary Elizabeth Campbell, Eastern Heiress

(International News Service)
HOLLYWOOD, Dec. 4.—Maxie Rosenbloom, former world's light heavyweight champion, today announced he would retire from the ring January 1 and within 60 days marry Mary Elizabeth Campbell, eastern heiress.

Rosenbloom now is working in a motion picture at the RKO-Radio studios.

"I like acting better than fighting, anyhow," he said. "I prefer comedy parts—but here I am playing the role of a gangster."

"There's only one thing would keep me from retiring from the ring and that is a bout with Joe Louis. He's not so hot."

Al Simmons To Be With Tigers

Chicago White Sox Will Get Walker, Gilbert And \$25,000 In Cash

By JOHN C. HOFFMAN
International News Service Sports
Writer

CHICAGO, Dec. 4.—Al Simmons, veteran White Sox outfielder, definitely will wear a Detroit uniform in 1936, and for this bit of generosity on the part of the Chicago club the Tigers will give up \$25,000 together with outfielder Gerald Walker and infielder Gilbert Engbliss.

That the deal has already been consummated and will be announced next week during the annual baseball meetings in Chicago was learned today by International News Service on reliable information.

Fabulous Sum Denied
It is further learned, upon equally good authority, that a report the White Sox have been demanding \$100,000 for Simmons is nothing more than rubbish. The Komiskey team is making no such demand for the simple reason that Simmons measured in terms of dollars and cents as against playing talent, is not worth that much.

Simmons, a great outfielder and an equally potent batter, came to the White Sox during the winter of 1932-33 along with Jimmy Dykes and Mule Haas for a sum at the time reported to be \$100,000. The outfielder had spent nine years with the Philadelphia Athletics, where he participated in three world series and for five successive years batted better than .350.

Expect Big Crowd
Consider for a moment Joe's approaching battle with old Paulino Uzcudun in the Garden, December 13. In the aged Basque Joe has an old has-been to knock over—a fighter who has been washed up for several years—and yet with a \$16.50 top the pair will surely draw at least \$125,000.

GOVERNOR EARLE SPEAKS AGAINST BERLIN OLYMPICS

Would Unquestionably Keep American Athletes From 1936 Olympics

(International News Service)
NEW YORK, Dec. 4.—Whether or not the United States sends an Olympic team to Germany in all probability will be decided this week-end when the National A. A. U. stages its annual three-day convention here. Delegates to the convention, already on the scene, today all angles of the problem would be gone into and that a real fight was in progress.

What many regard as the climax to the spirited campaign being staged to keep the U. S. out of the Olympics was reached here last night when Gov. Earle of Pennsylvania, Mayor La Guardia and a host of other notable addressed a gathering of 3,000 and urged an unequivocal American withdrawal.

Gov. Earle, former minister to Austria, said:

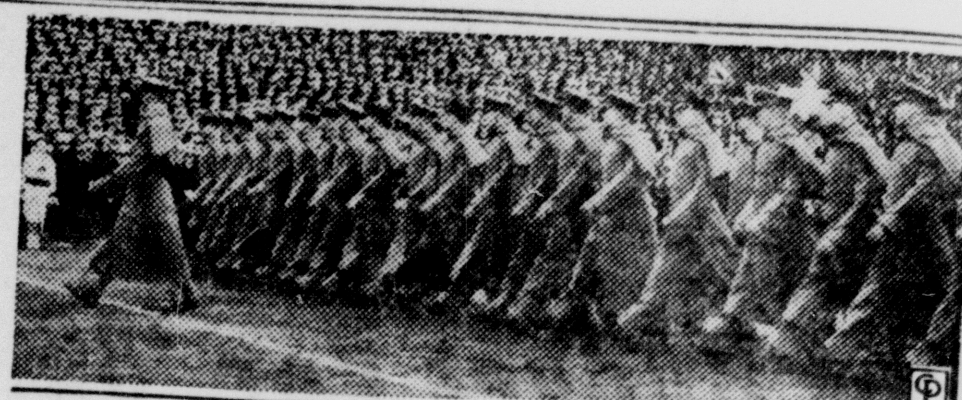

"I speak as an American sportsman and the father of four boys whom I want to grow up to be American sportsmen. American sportsmanship is a high ideal that you and I want to keep unsullied and clean together with the other great traditions of our country."

He added that participation in the games if held in Germany would be "submitting our youth to contact with social perversion."

La Guardia, condemning Nazi discrimination against Jews, Catholics and Protestants, said:

"Our athletes, I hope, will refuse to lend respectability to Hitler and his followers."

Other speakers included Jeremiah T. Mahoney, president of the A. A. U. and Alfred J. Lill, former president, Telegrams of support from six governors and as many U. S. senators were read to the gathering.

All-Eastern Team Picked By Coaches And Sport Writers

By TONY PUGLIESE
International News Service Sports
Writer

NEW YORK, Dec. 4.—International News Service today presents its all-Eastern football team as selected in a poll of leading coaches and sports writers.

Twenty-four coaches and 31 sports writers each voted for a first and second team. Two points were awarded players making the first squad, and one point to the nominees for the second team, making a maximum of 110 points possible for each position.

Two First Teams
The composite result of the poll follows:

First Team
Train, Yale, 63 points, end.
Lea, Princeton, 62 points, end.
Sarno Fordham 83 points, tackle.
Wasick, Colgate, 59 points, tackle.
Weller, Princeton, 66 points, guard.

Second Team
Daughters, Holy Cross, 51 points, end.
Shuler, Army, 45 points, end.
Stedman, West Virginia, 36 points, tackle.

Michaels, Villanova, 38 points, tackle.
Toll, Princeton, 30 points, guard.
Gisburne, Princeton, 34 points, guard.

Ray, Dartmouth, 31 points, center.
Smith, N. Y. U., 60 points, quarterback.
Patrick, Pitt, 54 points, halfback.
Irwin, Colgate, 41 points, halfback.

Randour, Pitt, 29 points, fullback.
Honorable Mention
The following players received the nod from a number of the grid experts, and their vote, while not entitling them to first or second team ranking, earns them honorable mention:

Ends: Kelley, Yale; Mulligan, Cath. U.; MacMillan, Princeton; Kelley, Harvard; Souchak, Pitt.
Tackles and guards: Detzel, Pitt; Zannin, Temple; Fortman, Colgate;

Fullbacks: True, Army; Megla, Georgetown; Kusko, Temple; John Handrahan, Dartmouth; Kurlish, Penn.

In the opinions of the football experts making these selections, American Sarno, of Fordham, was most widely picked. He received 83 out of a possible 110 points. Known as a hard charger, neither asking nor giving quarter, Sarno found himself ejected from two games: the Fordham games with St. Mary's and N. Y. U., yet he polled the highest vote.

Polish Falcons Win Floor Game
Polish Falcons basketball team handed the Tifareth Israel AA team a 56 to 22 defeat last night at the Falcon floor on Miller street. Russ Kawa was the high scorer of the game with six field goals for 12 points. Kozela and Augustus had four field goals apiece. Best for the Tifareth Israelis was Izzy Solomon and Shifman with three field goals apiece.

CATHOLICS WIN GAME
Catholics basketball team handed the South Side Merchants floor team a 38 to 30 defeat at the Lincoln gym floor with Conti the big points for the game, scoring 17 of the points for the winners; Rouse and Hayworth were the best for the losers. Sam Ross is business manager of the Catholics and would like to book games. Call 1192 and ask for Sam Ross.

"ROAD-DRYING" TREAD MAKES YOU EXTRA SAFE ON WET, SLIPPERY ROADS

Windshield-Wiper Action Tread Gives You Maximum Protection Against Dangerous "Tail Spin" Skids

Read this good news—all about a tire tread construction that adds safety to driving in winter on wet slippery roads—a revolutionary skid-resisting tread specially designed by Goodrich engineers that works on the same principle as your windshield wiper.

Look at the tread print of this rugged Silvertown tire. It has three center ribs instead of the usual two. At the first sign of a skid these three center ribs act as a wiper—actually sweep away water and slush, giving the double outer row of husky Silvertown cleats a full dry surface to grip. Thus your car is held in position and the danger of "tail spin" skids is greatly reduced by this amazing Goodrich tire tread.

This winter thousands of motorists will be injured, thousands of cars will be damaged as smooth, trail tire treads skid crazily over slippery highways. Don't you be one of them. Plan to give your car a bulldog grip on wet, wintry roads. Replace your tread-worn tires with rugged "Windshield-Wiper Action" Silvertowns now. Tires wear less during fall and winter months so you'll get extra safety this winter and still have practically a new tire left for next summer's driving.

And don't forget, Silvertowns are the only tires in the world with the Life-Saver Golden Ply—the amazing invention that gives you year 'round protection against high-speed blow-outs. See your Goodrich dealer tomorrow.

Stocks Rise One To Three Points Today On Big Board

By LESLIE GOULD
International News Service
Financial Writer

NEW YORK, Dec. 4.—The stock market swept forward one to three points today in a continuation of yesterday's rise, with renewed efforts abroad to find a peace formula for the Italo-Ethiopian hostilities the principal stimulant.

A number of carriers like N. Y. Central went into new high ground. Silvers were buoyant with U. S. Smelting up three points. Anaconda and International Nickel went to new highs in big dealings. Stocks were in better demand in response to the mid-week review of the industry. Sizeable gains were scored by Bethlehem and U. S. Steel. Westinghouse was up two points at one time in the equipments. Motors were stronger though gains were fractional. Oils were active and higher. Utilities lagged.

Cotton reacted after yesterday's bulge while grains were quiet. Bonds were strong. Gold currencies continued nervous.

ELLWOOD HI TEAM
HONORED AT HUGE
BANQUET TUESDAY

Nearly 500 Join To Pay Tribute To Coach "Denny" Schill And Grid Team

SPORTS NOTABLES
ON FINE PROGRAM

ELLWOOD CITY, Dec. 4.—A tribute, that will go down in the annals of Ellwood City as the greatest of its kind, was paid to Coach "Denny" Schill and his high school football squad by the Board of Education and the people of the community, as nearly 500 packed Shelby Auditorium Tuesday evening for the event. It was the largest banquet in the history of the city.

Impressive Event

People from all walks of life joined in this acknowledgement of a job well done. The affair was not only remarkable in its size but from the civic and sports notables present from this city and district. Guests and newsmen were present from Pittsburgh, Youngstown, Beaver Falls, New Castle, and this city.

A program, befitting the magnitude of the affair, was in the tried and trusted hands of Andy Biorli. It was thorough and satisfactory from every detail, from the standpoint of entertainment and speakers. The team and football squad as a whole, 75 in number, were lauded for its showing this past season, and the remarkable spirit and cooperative attitude displayed. The record

of eight victories, one tie, and one defeat was the best record compiled in five years.

The auditorium was beautifully decorated for the occasion in the blue and white school colors. Vases of lovely garden flowers adorned the many tables. Cleverly designed programs were kept as mementoes. The splendid turkey dinner served under the supervision of Jack McPhee, recreational director of the Shelby Clubhouse, drew loads of praise. The dinner was well prepared and served. George Robuck, second string quarterback who received a broken leg just before the fifth game of the season, received the entire dinner course at the hospital. It was brought up by some of his teammates. The invocation before dinner was given by the Rev. H. D. Maxwell.

Dr. Helling Is Toastmaster
Dr. H. E. Helling, newly elected president of the school board, presided on the occasion as toastmaster, which role he performed in a capable fashion indeed. His wit and humor throughout and introduction of speakers kept things going at a merry pace. Bill Jones, talented local vocalist, led a period of pep singing with Glen Hoffman at the piano. The former later rendered a number of special selections.

Supt. of Schools Vaughn R. DeLong, was the first speaker on the program and voiced the deep impression this huge gathering had made on him. He stated that the success of the team was not only due to the fine spirit and cooperation of the football squad, but also to a very large measure to the splendid support of the townpeople. Their response last night was further proof of the matter. In meeting seven major opponents this team was the most successful one in Ellwood City for several years, he declared. He praised the leadership and training the squad got under Coach Schill and Assistant "Dutch" Croft. He asserted that the former was a builder of men and character. Assistant Basketball Coach, Jerry Newton, was commended for his untiring efforts in the development of the team and spirit. Supt. DeLong cited a case or two of complete co-

operation and harmony of the foot-

ball squad and coaching staff.

District Notables

John Maloney of Pittsburgh, vice-president of the Variety Clubs of America, told of the value of football as a character building institution and in what ways it aids as a guide in overcoming obstacles in daily life. He declared that football is not being over emphasized as believed by many. He pointed out the value of sportsmanship in the public as well as the team in offering any criticisms. Their resulting actions reflect only upon the school and town, he asserted. He closed by prophesying that Ellwood City should go a long way with its enthusiasm, spirit, and cooperation as displayed.

"Howdy" O'Dell, backfield coach at the University of Pittsburgh, was the next speaker and told of the gradual building of a football team. He related some of the notions, actions, and impressions made by it during a season. "The comradeships developed with foes as well as your own teammates are cherished memories," the speaker said in closing.

Paul Kurtz, of Pittsburgh, stressed the value of being a good booster during a lean year as well as a good one. For its not always that a coach will be blessed with good material and that is the time when he will need the patience and support of the public. He urged the athletes not to neglect their studies for sports, for being a good student as well as athlete is one of the chief requisites of a modern college. He stated that team work and blocking is the foundation of a successful team.

Schill and Beede Speak

Coach Russell "Denny" Schill was then called upon and expressed his appreciation of the remarkable victory paid the football squad and himself. Invaluable aid by Assistant Coach "Dutch" Croft, a whole hearted cooperation of Supt. DeLong, Principal R. C. Shaffer, and the school board; a faculty which was only too willing to lend a hand whenever necessary; a community which backed its team to the limit; and an unusually intelligent squad, were contributing factors for the successful season just completed.

Without benefit of spring training the team picked up new things and picked up new things and picked up new things. He was further fortunate in having a captain in Mike Kranyak as a coach on the playing field. Besides being an outstanding linesman all season Kranyak was an inspirational leader and a steady influence on the team. Also at this time Coach Schill thanked Andy Biorli and Bernard Buchheit, managers of the Majestic and Manos Theaters, for the many appreciated services rendered the team and school during the past season. He then introduced a number of visiting guests and newsmen and had the local high school faculty rise. They were greeted with applause.

Captain Speaks

Captain Mike Kranyak thanked Coach Schill and Assistant Croft for their work with the squad and teaching them many valuable lessons during the season, and the fans for their splendid support. All working together is a hard combination to beat, he stated.

Head Coach Dyke Beede of Geneva college was the last speaker of the evening and stated that he was not much surprised with Ellwood City high's success, with Coach Schill here. Those playing under him clearly demonstrate how a high school boy should be coached, the speaker announced. He is qualified to make such a statement as a number of Coach Schill's former boys are on the Geneva team. Coach Beede explained the value of team work, blocking, and ruggedness and the individual does not have to be big either to be effective to the team. He closed in congratulating the squad, coaches, and fans

for the completion of such a successful season.

Dr. Helling closed the program by thanking all those who had a hand in making this event such a huge success. Music for the evening was provided by Lawrence Finlner and his orchestra from the high school. Another conspicuous thing on the occasion was the beautiful cake near the speakers' table donated by Joe Smith. It was decorated in the school colors and bore the inscription, "Ellwood City High School Team of 1935". The squad will eat this cake today with the first piece going to George Robuck in the hospital.

Several reels of moving pictures of outstanding football games in the country of the past few weeks was the last thing on the program. These were shown through the courtesy of Mr. Biorli. Members of the Rotary and Kiwanis clubs with their wives attended the affair in a body. Burgess Judd C. Turner was a special guest.

List of Grid Squad

Among other special guests were Mr. and Mrs. H. M. Cresswell, Mr. and Mrs. J. F. Fitzgerald, H. W. Smith, J. A. Evans, J. W. Mayne, W. L. Dean, Dr. A. M. Gigliotti, Paul Luther, Mrs. R. J. Schill, Mrs. Vaughn R. DeLong, Principal R. C. Shaffer, G. B. Hancher and Dr. C. W. Hayes.
